* The train track
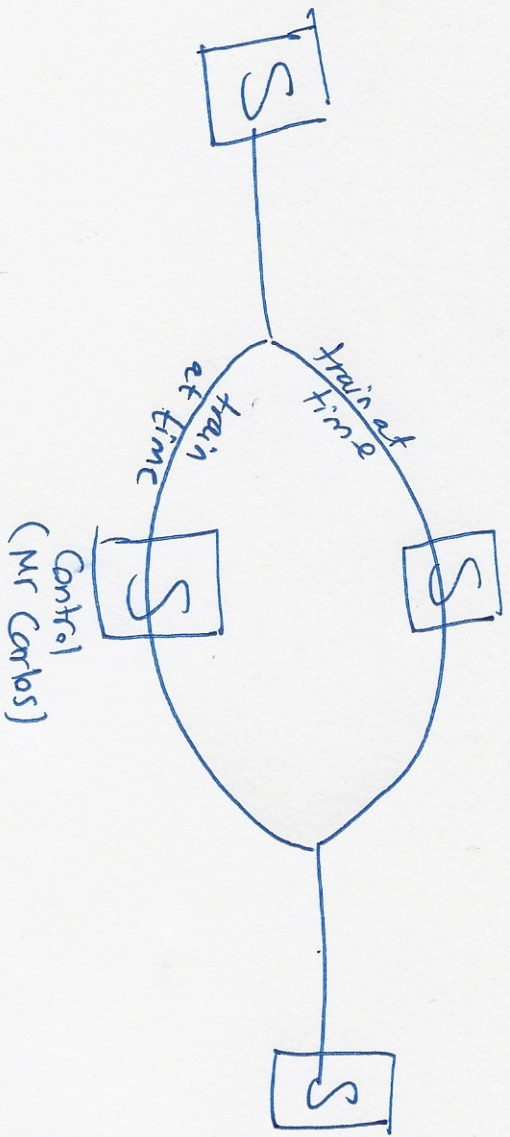

- Four Station

Control the level Crossing

Control (Mr Carlos)

train at time

train at time

Schedule Contain:

Starting the train at station

Stopping

Golden Arrow

Lapland Stäget

* Source → Train Engine
→ Train Console
→ Train Engine. Tests.
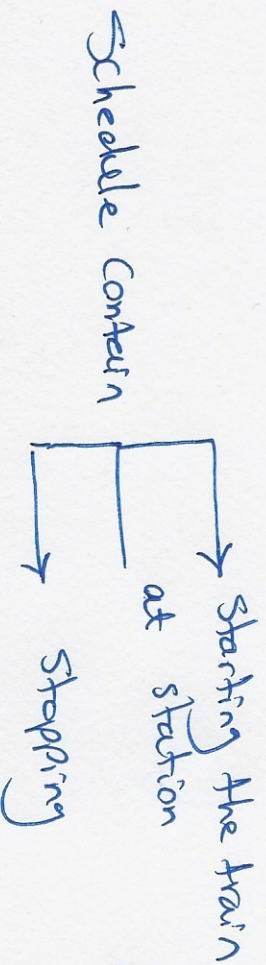

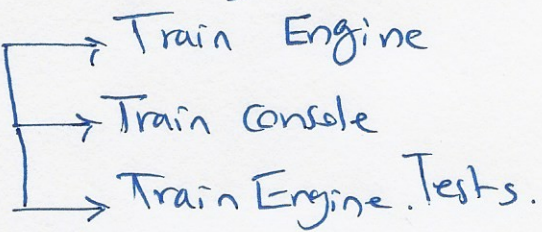

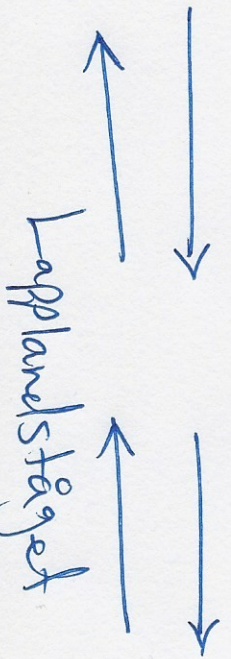

Part 1 - Fluent API to plane the trains.

Part 2 - Develop an ORM for reading the date

Part-3- Stimulate train track.

train.Start();
train.Stop();

each train should have own thread.
